Forward Movement Resources

Forward Movement is committed to offering resources that strengthen and support discipleship and evangelism. We strive to provide insightful, engaging, and accessible content on a range of topics, including prayer, Bible study, spiritual practices, leadership, church traditions, and emerging trends. Our materials are published in a variety of formats, including print, electronic books, podcasts, online courses, PDF downloads, and smartphone applications. We publish resources in English and Spanish. Our primary audience is adult readers, often people in the pews but also clergy. While many of our resources are targeted for an Episcopal/Anglican audience, we also offer some materials for a broader reach. Generally we do not publish fiction, poetry, or children's books.

Writers interested in submitting proposals for consideration by Forward Movement must include the information below. Submissions will not be accepted or reviewed without this information. Once the complete information is submitted, writers will receive an acknowledgment email with a timeline for expected response. The editorial review may take four to eight weeks.

If accepted, you will play a critical role in the promotions of your project. Our marketing and sales departments will utilize wide-ranging promotional channels and tactics to reach the right audience for your project, while also providing you with ideas and tools to self-promote through your own networks. In a busy and crowded marketplace, your support is crucial to successfully sharing not just the project, but the deeper message behind it.
